In relation to the case of forgery the particulars of which we gave yesterday, we have learned that the examination which was to have taken place at the Upper Police yester day was postponed until to-morrow. John A. Morrell, Esq. has been retained as counsel for the accused. A stationer has been discovered who sold to a person five blank checks tout of which he believes are those presented at the Manhattan Bank and paid. He has not, as far as we can learn. recognized the accused as the person to whom they were We understand we were in error in stating that Mr Draper had never before filled up a check, but the thing was extremely rare with him, his book-keeper generally handing him the check for his signature ready filled. On this occasion, in the absence of the book-keeper, Mr. D. filled up the body of the check as well as signed it. By the way, it was rather remarkable that not one of the evening paper coul I remember the name of the morning paper from which they first obtained their information of this forgers We understand that draits of the Northampton Bank on

The Life and Trust Co., we are informed, are calling in a considerable amount of money which has been out many years on bond and mortgage. They have also sold considerable amounts of stocks lately. These movements are probably prudential, in order to be prepared for any reaction from the other side of the water. The first suspicion of a deficiency in the Secretary's account was excited, we learn, from the fact that Mr. Palmer, when finishing the yearly statement which had been commenced by Mr. Nicoll. found that a number of certificates of deposit had been omitted, and this course was made necessary for Nicoll in order to conceal the deficiency of the assets. 'The manner in which he obtained checks for the money abstracted was by making talse credits of money deposited to his own trust-accounts, and then drawing a check for any amount he might want and charging it to these accounts.

IJ New National Maga time!—Prospec tas of THE WHIG REVIEW, AND AMERICAN MON' PHLY MAGAZINE.—The year 1844 will constitute a most entous era in the history of our country and or Constitutions if frequently and or Constitutions if frequently are frequently and or Constitutions in the constitution of the con dom. For good or for evil-for exultation or sorrow -that year will stand torth in the annals of the Union as one marked by events of no ordinary importance—events which stamp their impress on a Nation's destinies. In that year the great contest for ascendency between the ani 1go ples of Democracy and the practices of those who have insurped the name—between the Interests of the People and the hollow Professions of those who flatter to betray—between Patrouage and Selfishness on the one hand and Principles and the Public Good on the other—will be brought to a solemn arbitrament before the Grand Tribuna's of the

Name.

In the great contest new fairly commencing, it may well be expected that each party will put forth all its entities; but, if we do not greatly mastake the signs of the time, the Whigs embark in that contest with a sternness of resorn ion, a singleness of purpose and an ardor of patriotism wi tich have never been exceeded. They will dispute every inch of debatable ground through the struggle of 1844 with the spirit displayed by their tathers on the heights of Charl estown and the plain of Saratoga. Above all—aware that in-telligence is the life-blood of Liberty, and that to increase the number of those who read is almost infallibly to increase the number of Whigs—they will direct their primary efforts to the dissemination of Political Truth, to an extent far Deyoud what has hitherto been effected. Although a large portion of the public press is already sustained by Wing patronagy, and devoted to the advocacy of Whig principles, yet it can hardly be doubted that in a contest so determined in its character, so momentous in its consequences, ner nes to the popular judgement and new engines of attack and

aes to the popular judgement and new engines of attack and defence will be devised and set in operation, aiding largely in the dissemination and force of the facts as a largements on which the Good Cause rests its claims to the support of the honest and patriotic, and increasing the already striking prependerance of latetiligence and enlightened conviction on the side of National Reform.

The Whig Review is intended to occupy a position not new filled by any existing periodical in the country, and which may be most briefly defined as one of direct and determined antagonism to that of the misnamed but ably conducted and most perinciously influential "Democratic Review." It will be devoted in large proportions to Original Literary contributions from the best writers in the country, and to carefully prepared and powerfully written articles and to carefully prepared and powerfully written articles in elucidation and defence of Whig principles and measures, and in exposition of the practical abuses, mal-practices, and hollow pretences, tagether with confutation of the specious fallucies and the alarmingly Jacobinical in-culcations of Loco-Focoism. On this department of the work great stress will be laid, and the greatest efforts will be put in requisition to give it acceptance and efficiency. To this end the contributions of all the leading advocates of the Whig cause, whether in the Closet or the Forum, will be Whig cause, whether in the Closet or the Forum, will be solicited, and under such circumstances will be a most certain to ensure their ardent co-operation. Well considered Essays on Internal Improvement, Executive Power, the Judiciary, &c. will be given, and especial attention paid to the dispersion of themists of a clusion and talsebood in which the enemy has partially involved the public mind with research to Correction and Ranking. In short, it will be the congard to Currency and Banking. In short, it will be the con-stant aim of its conductors to render The Review the text-book of Opposition to the continuance of power in the hands of those who have grossly abused it, and a valued auxiliary to the advocates of the Whie cause throughout the country. Arrangements have been made to ensure its continuance through the year, and no effort or expense will be spared o render it worthy the patronage of the Whigs throughout

The Whig Review will be published on the first day of every month, commencing with April, 1843, in numbers of 112 large octave pages. It will be printed on the best paper and a new and beautiful type, prepared expressly for the surpose. Each number will be embellished with a fine steel Engraving, presenting the portrait of some distinguished and honored champion of the Good Cause, commencing with our country's noblest sons. It will be neatly got up and forwarded paymptly to any part of the Union.
